Almaredge 7

High performance soluble metalworking fluid

Description

Castrol AlmaredgeTM 7 (previously called SuperedgeTM 7) is a high performance chlorine containing soluble metalworking fluid which is boron free. It contains an additive package that works in synergy to enhance machining performance and surface finish, provide excellent product stability, improve bio-resistance properties and lower the overall operations costs.

Almaredge 7 is suitable for large central systems and single sump machines.

Application

Almaredge 7 is especially designed for machining of low-medium alloyed steel, high alloyed steel, stainless steel, aluminium alloys and yellow metalls.

Advantages

- Boron free to reduce residue formation
- · Resists fungal and bacterial attack to extend fluid life and reduce maintenance and machine downtime
- Low foam in recommended water conditions
- Good anti-corrosion properties to protect machine tools and parts
- · Advanced lubricity compounds ensure improved tool life and part quality in steel and aluminum machining
- Excellent wetting properties reduce coolant drag out and deliver clean machine tools and components
- Multi-functional product for multi-metal operations results in product consolidation

Storage

To avoid product deterioration always keep the container/drum tightly sealed. Store the product in a cool, dry place away from direct sunlight. Prevent exposure to frost and avoid water ingress. For optimum product stability, it is preferable to store the product indoors between 5°C and 45 °C / 41°F and 113°F.
